

Training Clinic

At County Scout Camp

Saturday 2nd June 1300-1600

Training Clinics are opportunities for Leaders in Training to meet with a member of the Training Team at a County or District event that they are already attending to; discuss any training issues/needs they

have, find out what training is on offer, validate completed training or even organise for a practical assessment to be performed.

Booking is not essential, although will help the team organise enough cover for the event. Further details can be found on the Training News & Events page of the county web site at www.isleofwightscouts.org.uk
